

Minji Jeon

+82 10-2617-2396 | jminji79@gm.gist.ac.kr | Gwangju, South Korea

EDUCATION	Gwangju Institute of Science and Technology (GIST) B.S in Mechanical Robotics Engineering TGPA: 3.97/4.5	Mar 2024 – Feb 2028
	University of California, Berkeley Summer Exchange Program	Jun 2025 - Aug 2025

RESEARCH INTEREST	Rocket Injector Dynamics , Acoustics, Combustion Instability
-------------------	---

SKILLS	Tools: Fusion360, AutoCAD, LabVIEW
	Programming: Python, MATLAB, C, LaTeX, Arduino IDE
	Languages: Fluent in English
	Others: Mechanical drawing

RESEARCH EXPERIENCES	Eco-friendly Combustion and Propulsion Lab (ECPL), GIST	
	Supervisor: Jinhyun Bae	Jan 2026 – Present
	- Fabricated and set up basic experimental equipment - Produced technical drawings for a pintle-injector experimental apparatus for water-flow testing - Conducted preliminary experimental research on a variable-cavity sound dampers - Led lab tours for GIST undergraduates	

PUBLICATIONS	Conference Presentation	
	Jeon, M.; Bae, J. Pressure-Perturbation Attenuation in an Impedance Tube Using a Variable-Cavity Helmholtz Resonator. Korean Society of Propulsion Engineers 2026¹	May 2026

TEACHING EXPERIENCE	Teaching Assistant - MC 2100 Thermodynamics I, GIST	Mar 2026 - Jun 2026
	Professor: Jinhyun Bae	
	Conducted English-taught recitation sessions for 42 students, including support for international students	

AWARDS & SCHOLARSHIP	National Scholarship, GIST	Mar 2024 - Present
	Awarded to incoming students to support financial stability and enable full focus on academic studies	Mar 2026 - Dec 2026
	Mirae Asset Hope Foundation Scholarship, Mirae Asset Securities	
	Recognized as a high-achieving student in Korea and awarded funding to support academic concentration

EXTRACURRICULAR ACTIVITIES

National University Student Rocket Launch Competition	Aug 2024, Aug 2026
- Served as overall team leader managing 25 people; achieved GIST's first solid-rocket launch in the competition at GIST rocketry club, GPERI² - Managed safety documentation and experimental reports - Designed and modeled the rocket engine; conducted TMS testing for a solid rocket motor - Built an ejection system and conducted drop tests	
Hanwha 2025 Space Challenger, Hanwha Aerospace	Jan 2025 - Feb 2025
- Advanced past the semifinal round and delivered the final presentation - Wrote a technical proposal for implementing Thrust Vector Control³	
2025 Space Camp for Female College Students, Korea Aerospace Research Institute (KARI)	Feb 2025
Selected as one of ~20 female students aspiring to aerospace careers; attended on-site laboratory tours and engaged in technical sessions with senior satellite researchers.	
2024 Infinite Challenge Program, GIST	May 2024 - Nov 2024
: Program that provides funding and mentorship to pursue initiatives beyond standard coursework - Led the team of 6 people focusing on Thrust Vector Control (TVC) implementation as a team leader - Managed administrative documentation and led interim report preparation - Selected as an Outstanding Team (2024); presented the following year as PI	Jul 2024, Jul 2026
National University Rocket Association Conference	Jun 2024 - Present
Shared project progress and exchanged ideas with rocket clubs from other universities	
Student Reporter, GIST	2024 Sep - 2024 Nov
Wrote aerospace-related articles, including Artemis program updates⁴ and Nuri launch vehicle launches⁵	
Culture Exchange Program DoranDoran, GIST	Aug 2024, Feb 2026
- Participated in a 3-person group to exchange culture and language - Filmed activities and visited Bangladesh local restaurant	
Samsung Motor Boot Camp, GIST	Sep 2024 - Jun 2025
- Completed lectures on motors and control systems sponsored by Samsung Electronics - Participated in a team PID control project and a boot camp competition	
School band Dodohan Jjuba	
Performed as a piano session at university festivals, independent performances, and an inter-university sports event	

² <https://sites.google.com/view/gperigist/%ED%99%88>

³ A rocket guidance technology that steers a vehicle by changing the direction of engine thrust (e.g., by gimballing the nozzle), enabling attitude and trajectory control.
